

I g M

Immunoglobulin M

from Human serum

Specification

Purity

Specifications
≥97% (HPLC)

Preparation

about 10 mg/mL (PBS containing 0.05% NaN₃, pH 7.3)

Storage

2~10°C

OYC No./Package

OYC No.	Package
47347000	1 mg
47367000	5 mg

(Research reagent use only, not for medical use.)

CRP-FREE-SERUM

Human C-reactive protein free serum

Specification

CRP concentration

Specifications
≤1 μg/dL

Preparation

Liquid form (containing 0.09% NaN₃)

Storage

2~10°C

OYC No./Package

OYC No.	Package
47203000	100 mL

Feature

It is a serum which CRP is removed by absorption with affinity chromatography of normal human delipidated serum.

Application

It is for control serum and base serum of standard product.

(Research reagent use only, not for medical use.)
